

St Neots Museum Development Plans

Your stories, your community

Museum Development Vision

- To enable everyone in our area to participate, enjoy and learn about their rich local heritage
- To tell the story of the area from earliest times to today - focusing on shared stories across time

Our aim is to transform the museum into a cultural hub for the town:

- Extend the building with a new welcoming glazed entrance
- Create brand new immersive displays to bring the story of the town up-to-date
- Add a new extension with a café and bar area and new meeting spaces for hire
- Include a new kitchen space for community cookery
- Include a lift to the first floor to improve access
- Create new office space to extend volunteering opportunities
- Include a Government Indemnity standard display area for high quality temporary displays

St Neots Museum Vision statement

To inspire our local community, to discover, enjoy and take part in local heritage

We need help with

- New Trustees
- Volunteer building surveyor
- Architects plans
- Legal advice
- Fund raising
- Local village connections
- Collecting local peoples stories

We need your help to realise our plans
