

St Neots Biodiversity Survey

A Joint Survey by St Neots Rotary Club and St Neots Museum. The results will be collated by species and reported to the [Cambridgeshire & Peterborough Environmental Records Centre \(CPERC\)](#) to become part of the biodiversity record for the area, the county, and England as a whole.

Your name

Your address

Observations

Please provide the month and year.

Species	Date	Location	Grid reference (optional)	Abundance	Record type	Comments
Common or scientific name. For example Robin.	When did you see the species?	State any further location details here, for example, at the river side in Regatta Meadow, or a street.	A six figure grid is adequate and you can find this on www.gridreferencefinder.com	If relevant and known please put the number.	This could be a sighting, bird song, animal track, droppings, photo or something else.	Any other relevant information. For example, what you saw or heard, how frequently you saw or heard it and any further location details.
Robin	05.11.22	Riverside Park, St Neots	179599	5	Sighting	Various pairs spotted

Example

Species

Common or scientific name.
For example Robin.

Date

When did you see
the species?

Location

State any further location
details here, for example,
at the river side in Regatta
Meadow, or a street.

Grid reference (optional)

A six figure grid is adequate
and you can find this on
www.gridreferencefinder.com

Abundance

If relevant and
known please put
the number.

Record type

This could be a sighting,
bird song, animal track,
droppings, photo or
something else.

Comments

Any other relevant information. For example,
what you saw or heard, how frequently you saw
or heard it and any further location details.

Species

Common or scientific name.
For example Robin.
