Perfect Paper Chains

You need:
Crayons, pencil crayons, felt tip pens or paints
Scissors
Glue stick

1. Colour in the sheet below with crayons, pencils or paint.
2. Cut out along the lines.
3. Glue one strip together in a circle, then thread another strip through that and glue the new strip in a circle too....making a chain. A helpful tip is to use a paperclip to hold the circle whilst it dries.
4. Once your glue is dried then decorate your room, tree or table.
